

Bias in AI

Bias in AI

- MIDAS - Michigan Integrated Data Automated System
- AMAZON AI recruiting tool
- COMPAS
- Universal Credit

The background of the slide is a solid orange color with a faint, repeating pattern of circuit board traces and components, creating a technological or digital theme.

If implemented properly,
AI could deliver an
additional \$939 billion in
value across the public
sectors of 16 major
developed economies
by 2035.

- World Economic Forum

Compensating For bias

- Change the model
- Hippocratic oath for Data
- Code of conduct
- Accreditation
- Thick Data
